To Whom It May Concern

Radiation Testing

This is to certify that test subject, Atelocollagen Scientific Mask (Appendix I), is radioactive free and meets the safety requirements of the Health Sciences Authority.

The unit of measurement used in the centre is CPM. Whereby the safety range of CPM is $25 < X < 100$.

Warning level is determined at >100 CPM. Background atmospheric level during testing was 25 CPM.

CPM of test subject was 25 CPM, same as atmospheric level and attested safe.

Yours faithfully

Soo Lee Min (Ms)
Officer in charge
for Radiology Centre
Centre For Life Sciences
